POCKET CAB

Pocket CAB is a portable, rechargeable full-range speaker system that integrates a battery, amplifier, speaker driver, and enclosure. Designed for digital effectors (headphone output) or stereo audio devices, its standout features are its streamlined compact design and exceptional sound performance. When paired with our company's POCKET AMP, it forms a dedicated digital effect amplifier for electric guitars.

II. Precautions

■ Power Supply:

Please use a USB Type-C 5V 2A power charger to avoid potential circuit damage.

Using a 5V 2A charger as an example, a fully depleted battery takes approximately 3.5-4 hours to reach full charge.

■ Connections:

USB Type-C Port: Power charging only

Input Audio Jack: 3.5mm stereo audio only

Top Panel Physical Slot: Compatible with POCKET AMP for secure attachment.

■ Electrical Interference:

Keep away from high-power electromagnetic devices such as radios and televisions, as they may cause audio interference.

■ Placement:

To prevent product failure or damage such as deformation and discoloration, please avoid the following conditions:

- A. Heat sources
- B. Magnetic fields
- C. Direct sunlight
- D. High temperature and humidity
- E. Moisture after freezing
- F. Excessive dust or foreign object ingress
- G. Severe vibration or dropping
